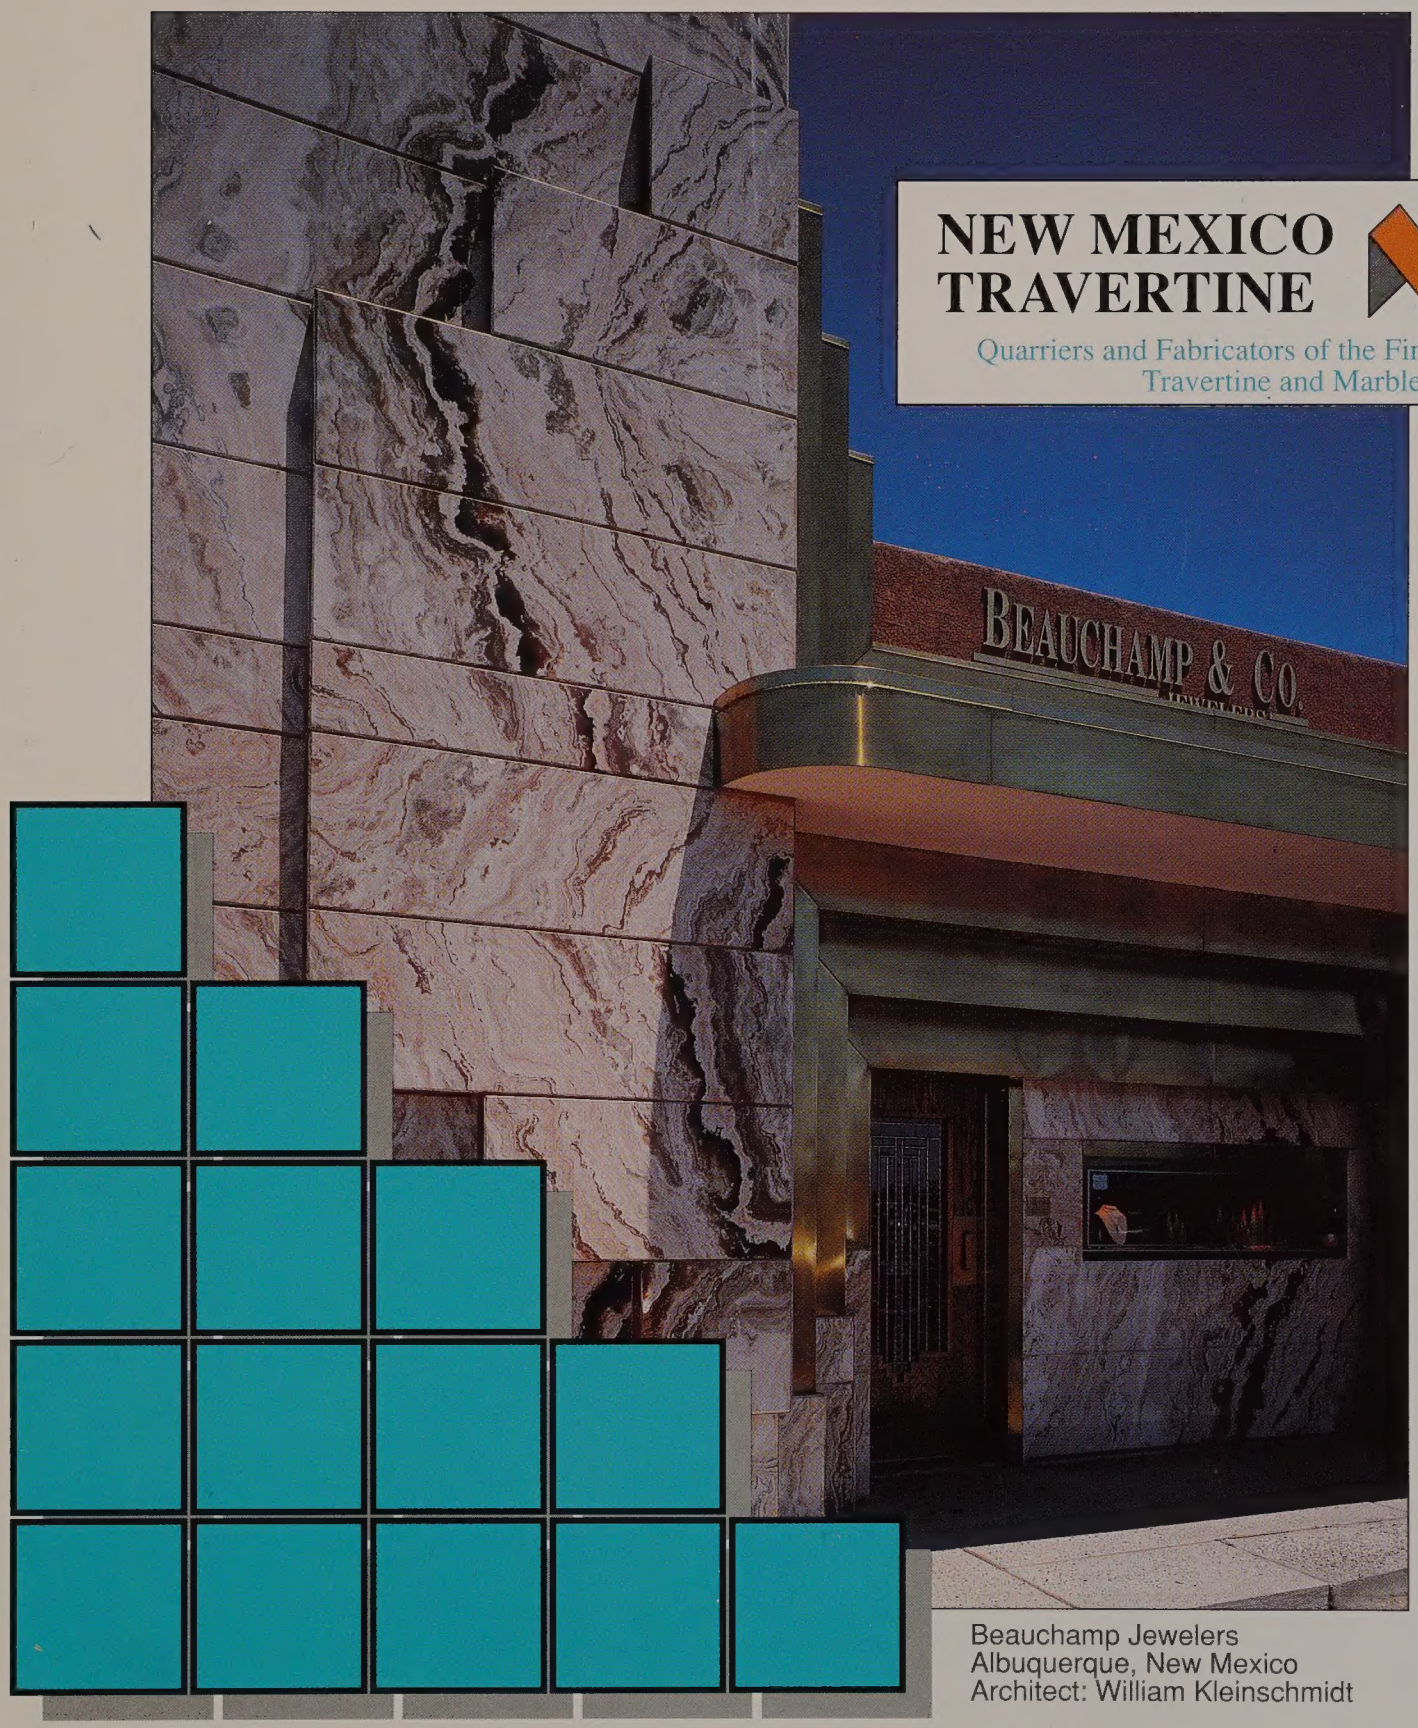
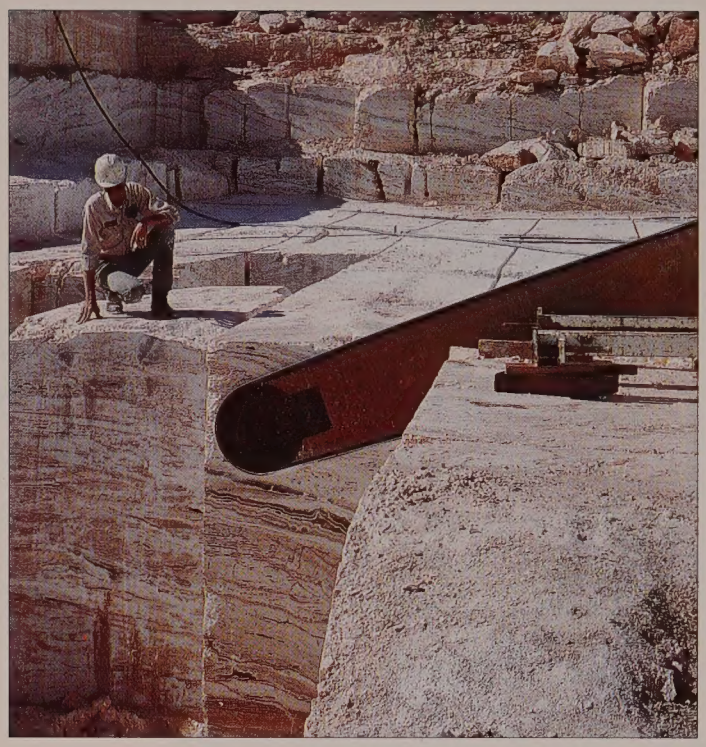
NEW MEXICO TRAVERTINE

Quarriers and Fabricators of the Finest Domestic Travertine and Marble



Beauchamp Jewelers
Albuquerque, New Mexico
Architect: William Kleinschmidt



With contemporary hues, colors and patterns, New Mexico Travertine offers the building and design professional a broad range of premium materials that reflect the essence of the American Southwest.

Owned and operated by the Lardner family, with 30 years experience in the stone industry, New Mexico Travertine Inc. (NMT) reflects a great deal of tradition and pride as a supplier of fine stone products.

Each step of the quarry and fabricating process utilizes the most advanced cutting and finishing technology available, which ensures efficiency and optimum product integrity. Because we are a single-source supplier, we can offer timely delivery and quality natural stone products at competitive rates.

NMT takes great care in packaging and delivery of their building stone products to assure ease of use and efficient installation.

For your next project, consider our fine products, their distinctive features and styles that epitomize the spirit of New Mexico - The Land of Enchantment.

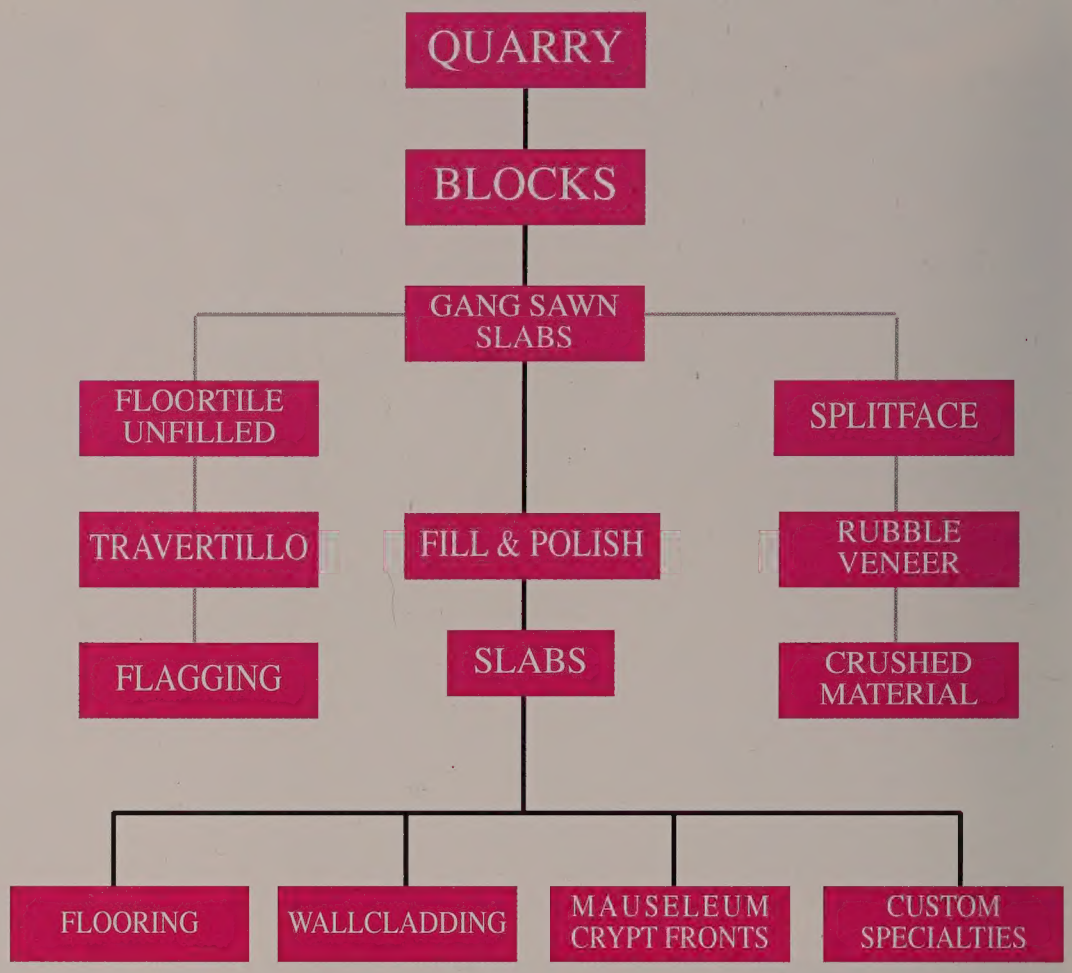
Consider these advantages that New Mexico Travertine has to offer:

- Five colors not available in travertine elsewhere.
- You may select quarry blocks and follow the job through the fabrication process if you wish.
- Domestic fabrication means lower freight costs and minimum breakage of material.
- Prices are guaranteed at a dollar value and will not fluctuate with the international money market.
- One company follows your job from the quarrying to delivery to the job site, supervising fabrication, packaging and trucking.
- New Mexico Travertine is a proven building material used on buildings as early as 1959.



Test information and specifications are available upon request.

Kitchen

An AVONITE kitchen, with its ease of maintenance, becomes both a functional workplace and a beautiful showplace. Counters, tables and bar tops have the elegance of real stone but with greater resistance to damage.

Exciting installations in AVONITE are limited only by your creative imagination. Color or metal inlays, special edges, and stone-in-stone effects are a few of the design possibilities. Only AVONITE has a full palette of rich, stone colors.

If you are building new or remodeling, specify AVONITE and know that you have chosen the finest solid surface material available . . . a TEN YEAR WARRANTY* on labor and material backs up that promise.

Bath

There is a revolution going on in design concepts for the bath! Luxury and utility are the requisites for any new or remodeled bathroom. Only AVONITE, with its more than 22 stone colors, and its satin or polished surface options, can give you limitless design choices.

Whether you choose Granite patterns or Gemstone Agates, AVONITE creates a new stone age of elegance . . . and because of AVONITE's patented process, neither hair dyes, perfumes, nor a host of destructive agents will ever permanently mar its surface . . . WE GUARANTEE IT!
